

Subject: ada_example

Type: username · Investigator: Reese Gerjekian · Generated: 2026-07-09 08:36 UTC · Authorized: yes · Scope: Sanitized documentation sample built on a fictional persona. No real private individual. Public, passive collection only.

Key Findings

A consistent handle (ada_example) appears across GitHub, Medium, and Instagram, and a WordPress account is tied to the email. These are presence signals only and were not further verified. No assessment of character or conduct is made here; see Recommended Next Steps.

Recommended Next Steps

- Review the guided pivot links and confirm the social profiles by hand.
- Corroborate the WordPress account before relying on it.
- Complete the Assets, Professional, and Legal sections from public records.

Search Methodology

Searches were performed using the subject value "ada_example" and derivatives. Automated collectors run: username presence (Maigret), email account-existence (Gravatar and holehe), file and photo metadata (ExifTool), and search-kit link generation. Sources behind logins or anti-bot controls were not scraped; guided pivot links were generated for manual review. A finding marked unreachable could not be confirmed at the time of collection.

Personal & Residence

To complete: Identity details (date of birth, current and prior addresses) are not collected by automated public tools. Complete this section manually from public-records sources.

Email Addresses

Finding	Confidence	Notes	Source
Gravatar avatar exists for ada@example.com	medium		[3]

Social Media & Online Presence

Finding	Confidence	Notes	Source
https://github.com/ada_example	high	Primary code account; activity matches persona.	[1]
https://medium.com/@ada_example	medium	Writes about open-source tooling.	[2]
Account exists at wordpress for ada@example.com	low	Existence only; not yet corroborated.	[4]
Reddit (ada_example)	unknown		[7]

Assets & Liabilities

To complete: Property, vehicle, and business-ownership records require public-records or proprietary databases. Complete this section manually.

Professional Development

To complete: Education, certifications, professional licenses and disciplinary actions, and employment

history. Verify manually and note verified versus self-reported.

Legal

To complete: Litigation, liens and judgments, foreclosure, bankruptcy, evictions, and criminal and sexual-offender records. Not collected by automated tools; complete manually from court and agency records.
